

In The Know

NEW Phone System

As you may have noticed, we have just upgraded our phone system with newly developed technology to help improve service to all of our customers. Unfortunately despite our best planning and preparations we experienced a few initial settings issues during our upgrade and we would like to apologise to anyone who has experienced any problems whilst trying to contact us during the upgrade. We are continually listening to your feedback and are making changes to the new system to make it as user friendly as possible, so keep the feedback coming. There are many advantages with our new phone system and our reps will be out and about letting you know of the benefits over the coming months.

NEWS

BPA recently appointed a position for the specific purpose of product ranging and introduction of new part numbers. Now working in-house we have been able to start producing encouraging results in a fairly short time, such as the 43 new Zircon Disc Pad listings that you may have seen in last months issue of "In The Know". This issue contains 46 new Reliance Disc Rotor listings and next month will see 140 new Girling Disc Pad references not covered by Bendix arriving, and the lists keeps growing. So you can rest assured that we have got you covered with the parts you need.

We also have all of these new references listed in our latest digital catalogues. These catalogues are accessible through an up-to-date BPA Resource Centre. This months update includes the latest catalogued references, and will be available Wednesday the 5th August. All you have to do is select UPDATE. If you have a BPA Resource Centre and have not been contacted regarding the update or have any questions regarding the Resource Centre please call BPA and speak to Jeremy.

Did You Know...

We have Disc Pad & Brake Shoe Hardware Kits available.

Each kit has an array of pins & clips used in the fitment of disc pads & brake shoes

Girling Disc Brake Pads

JACK BRABHAM WON THREE DRIVERS' WORLD CHAMPIONSHIPS

He only trusted Girling brakes

- Excellent fade resistance and fast recovery**
- Stable Friction Level**
- Good pedal feel**
- Noise free braking**
- Low dust**

NEW Range Additions

This is where we would normally list this months new Disc Rotor additions, but this month, the list is simply

TOO BIG

to fit in this space. Please see the attached sheets for a list of the new Reliance Disc Rotor additions

Automotive Brake Parts Catalogues
